Agreement" form is completed and submitted by the applicable dealer and NATIONAL LIMOUSINE ASSOCIATION, INC. (or its authorized Fleet Management Company, provided such purchases or leases do not incorporate retail or other incentives.

NATIONAL LIMOUSINE ASSOCIATION, INC.'s purchases and/or leases of out-of-stock General Motors vehicles using retail or other incentives will not be eligible for incentives in connection with this Competitive Assistance Program. Nonetheless, such purchases and/or leases of those out-of-stock General Motors vehicles will still count toward attainment of the Volume Requirement provided that NATIONAL LIMOUSINE ASSOCIATION, INC. complies with all other terms of the Agreement. Such purchases and/or leases must be reported as fleet deliveries even if retail incentives are claimed. Eligible Vehicles ordered with processing code KZD cannot be converted to out-of-stock purchases and/or leases and are not eligible for retail or other incentives.

### Price Assurance

General Motors will provide NATIONAL LIMOUSINE ASSOCIATION, INC. with the "Price Assurance" described below on Eligible Vehicles for the following model year, for which General Motors has not yet announced pricing as of the date of this Amendment.

The Price Assurance Threshold is a percentage or dollar amount that indicates the maximum price increase for the following model year Eligible Vehicles compared to the current model year Eligible Vehicles, which may vary by model. Your Account Executive will provide NATIONAL LIMOUSINE ASSOCIATION, INC. with the Price Assurance Threshold that GM, in its discretion, is willing to provide upon written request after ordering becomes available for the model year following the model year that is the subject of this CAP Agreement. A year over year price increase will be calculated by comparing the official General Motors Price Schedule that was in effect at the end of production for the current model year to the official General Motors Price Schedule that will come into effect at the beginning of production for the following model year. In the event that such comparison results in an increase higher than the Price Assurance Threshold for Eligible Vehicles for the following model year, General Motors shall provide further incentives and/or allowances to ensure that the increase in the pricing applicable to NATIONAL LIMOUSINE ASSOCIATION, INC. for the following model year is limited to the Price Assurance Threshold ("Price Assurance"), subject to the provisions and restrictions herein. Notwithstanding the foregoing, in the event that such comparison results in a decrease, General Motors may, at its election, reduce incentives offered in connection with this Competitive Assistance Program by the amount of the decrease in pricing.

Price Assurance applies only to Eligible Vehicles for which pricing has not yet been announced by General Motors as of the date of this Amendment. Price Assurance applies to vehicle price increases based on economics and destination and freight charges. Price Assurance does not apply to vehicle price increases made necessary due to equipment adjustments, government-mandated equipment and emission changes, optional equipment made standard, mid-cycle enhancements and vehicle design changes, all as determined by General Motors in its sole discretion.

### Purchase Order Modifications

GM may, in its discretion, reject or cancel a purchase order, or any portion thereof, alter the quantity of vehicles sold to NATIONAL LIMOUSINE ASSOCIATION, INC., or alter the timing of delivery of such vehicles, due to production delays or governmental action, including, without limitation, as a result of material shortages, shipping or logistical delays, labor shortages (including strikes or work stoppages), requirements to comply with applicable laws, statutes, regulations, executive orders, tariffs and/or duties, or other supply chain issues.

### Commercial Upfit Programs

Purchase or leases of vehicles incorporating incentives in connection with the GM Business Choice Program are **not** eligible to receive incentives in connection with this Competitive Assistance Program.

### Retail Incentives

### Price Protection

General Motors will honor prices for 2026 model year Eligible Vehicles at prices effective as of order date for vehicles ordered ("Price Protection") subject to the terms and limitations set forth in this section. The Price Protection offered by General Motors applies to price increases based on economics and destination and freight charges that occur post-order date for vehicles ordered. The Price Protection offered by General Motors excludes vehicle price increases made necessary due to equipment adjustments, government-mandated equipment and emission changes, optional equipment made standard, mid-cycle enhancements, vehicle design changes, and governmental action, all as defined and valued by General Motors. Price Protection does not apply to units purchased out of dealer stock.
